## CONGRESS MAY NOT ADJOURN ON JUNE 7

### FARM RELIEF MEASURE MUST BE SATISFACTORY

MIDDLE WESTERN PROGRESSIVES  
WANT SUCH LAW  
ADOPTED

LEADERS OF DIFFERENT FAC-  
TIONS GIVE OPINION ON  
OUTLOOK

(By United Press)

#### Congress Today

Senate: Considers calendar bills.  
Foreign relations committee executive session.  
Interstates Commerce committee on railroad consolidation.  
Daugherty investigation continues.  
Muscle Shoals hearings.  
Mayfield investigation.  
House: Considers calendar bills.

Washington, May 21.—Congressional leaders today saw but one obstacle to adjournment on June 7, and that was enactment of a farm relief measure satisfactory to middle western progressives.

Confident that the tax bill as revised by conferees will be signed by the president, the dictators of policy of all factions agreed to disregard the clamor for other legislation and get away for the summer. In the meantime agitation for the repeal of the present railroad law in the senate was not pressed.

With this decision the farm relief bill started rolling in both houses. While the house had taken the measure under consideration, Senator Norris in the senate announced that he would move probably today to take up his Norris-Sinclair agricultural bill.

Here is what leaders of various factions think about the outlook:

Senator Robinson, democrat—"Chances for adjournment June 7 are very good. I see no objection from the democratic side except the few senators who want action on some special legislation."

Senator Brookhart, progressive—"If the new farm relief bill is passed we will have no objection to adjournment."

Senator Curtis, republican—"The senate is a very peculiar legislative body, and it is hard to tell what it will do next, but I see no present objection to adjournment."

It is likely that the Muscle Shoals group will make demands for action before adjournment; the world court group announced intention of forcing a vote upon that issue, and declarations have come from some senators that they intend to call up the special bills.

#### SENATE COMMITTEE REJECTS FORD OFFER

Washington, May 21.—By a vote of 10 to 6 the senate agricultural committee today rejected Henry Ford's offer for Muscle Shoals nitrate and power project.

The vote on the bid came in executive session shortly after the committee had announced it would end all hearings on the disposition of the project next Monday and consider its recommendation to the senate beginning Tuesday.

Details of the committee's action were not available because of secrecy while the vote was taken.

Ford's offer was endorsed by the house by an overwhelming vote last Monday. The committee's action forces supporters of the auto magnate's bid to fight to keep it on the floor of the senate for final action.

#### HOUSE AGREEMENT ON THE TAX BILL

Washington, May 21.—The house conferees today reached an agreement on the final form of the tax bill.

The agreement provides for the democratic normal and surtax rates but eliminates the provision for full publicity on income tax returns and substitutes the house flat 12½ per cent rate.

## Immigration Bill Affects Japanese Relations

### SHIP WRECKED, 4 ARE DROWNED, 16 ARE RESCUED

(By United Press)  
Sault Ste. Marie, Mich., May 21.—Capt. Anthony L. Lawrence, Cleveland, and four of the crew of the steamship Orinoco, were drowned while attempting to reach shore after the wreck of their boat in a 60-mile gale Sunday. This was the story told by brief wireless messages received today from the tug Gargantua, which rescued 16 members of the crew from the Montreal Island late yesterday.

#### CAPTAIN, ENGINEER GO DOWN WITH SHIP

Sault Ste. Marie, Mich., May 21.—Capt. Anthony Lawrence of the ill-fated Orinoco and his wheelsman and chief engineer stuck to their posts and went down with the vessel in a 60-mile gale off Point Aux Mines Sunday, survivors of the disaster declared here today.

Two other seamen were frozen to death as they tried to make shore with other members of the crew in the ship's boat. Of the 17 survivors who arrived here today on the tug Gargantua, one had a broken arm and others had frozen fingers or toes to remind them of the bitter wind that pursued them after their escape from the shipwreck.

### NEW CABINET IN FRANCE PROBES FINANCE

#### MILLERAND WANTS TO KNOW ATTITUDE OF LEADER HERRIOT

#### NEW PREMIER SHOULD UNDER- STAND WHAT HAS BEEN PROM- ISED AMERICAN BANKER

(By United Press)  
Paris, May 21.—The first step towards formation of a cabinet to succeed that of Premier Poincare was taken at Elysee palace at noon today.

President Millerand informed Edouard Herriot that he must know the attitude of his party toward the loan that saved the franc from collapse a few months ago.

Before Herriot, leader of the radical group, is formally invited to form a cabinet, Millerand wants to know the attitude of his party toward the agreement with Morgan. It is also necessary for the next premier of France to understand what France has promised to the American banker. After the conference at the Elysee it was officially announced that Herriot and ex-premier Painleve had given their pledge that rigorous equilibrium of the budget would be considered absolutely necessary, no matter what government succeeds that of Premier Poincare.

#### FREEZE DAMAGES GARDEN TRUCK

(By United Press)  
 Fargo, N. D., May 21.—Garden truck was killed in the Red River valley by a freeze last night, and some damage may have been done to fruit trees and field crops, according to weather bureau reports.

Temperatures as low as 22 above zero were reported in the vicinity of Fargo and as far northeast as Thief River Falls, Minn.

The ground was frozen an inch deep in many places, killing tender growths not rooted deeper.

#### A Suicide at Ten

(By United Press)  
Paris, May 21.—Four years ago Lucien Cordy, then a child of six, saw his 15-year-old brother place his father's army revolver to his temple and kill himself. The other night he felt lonesome when his mother left the house, got the same revolver and did the same thing.

### SHIPSTEAD MAY LEAD 3RD PARTY, SAY ITS LEADERS

#### CONTINGENT ON LA FOLLETTE DECLINING THE CANDI- DACY

#### WILLIAM MAHONEY WILL BE TEMPORARY CHAIRMAN OF CONVENTION

(By United Press)  
St. Paul, May 21.—If Senator Robert M. La Follette declines to become the third party candidate for president, either Senator Henrik Shipstead of Minnesota or Senator B. K. Wheeler of Montana may be the party's choice, leaders here said today.

William Mahoney, who will be temporary chairman of the national third party convention here June 17, returned from a tour of the East and South in the interest of the party. He said he found a strong sentiment in the east for Senator Shipstead and predicted he would be the standard-bearer if Senator LaFollette's health will not permit him to run.

Senator Shipstead has been won over to the third party convention in June by assurances that the communists would have control, as reported in what Mahoney called "political propaganda."

Senator LaFollette has not said definitely whether he will accept the endorsement and will not commit himself until he sees what the republican and democratic national conventions do. Many of the third party delegates, however, are already pledged to support the Wisconsin solon. It is likely that the convention will endorse secondary candidates.

#### STRUCK HER WITH A BASEBALL BAT

(By United Press)  
St. Paul, May 21.—"Good morning. My husband didn't come home last night."

With these words Mrs. Anna Gagstein applied a baseball bat to the head of Mrs. Jennie Vana, took her 7-year-old child with her, and departed.

After police got Mrs. Vana to the hospital they started a futile search for Mrs. Gagstein.

### BAKERS CITED FOR SALES ON SUNDAY

#### ST. PAUL TO PROSECUTE DEAL- ERS WHO SELL GROCERIES ON THE SABBATH

St. Paul, May 21.—Bakeries are to be included in the campaign being waged to enforce the law prohibiting the sale of groceries on Sunday. This announcement was made by Thomas Walsh, assistant city prosecutor, who has been conducting the campaign in co-operation with the St. Paul Retail Grocers' association. Meantime the Sunday grocers are getting ready to launch their first counter attack against what they declare is unnecessarily rigid enforcement of the "blue laws."

A meeting of the confectioners and light grocers who stay open Sundays will be held in the Fisher confectionery store, 620 W. 7th St. Thursday night to discuss plans for opposing the "blue laws."

The public needs groceries on Sunday and there is no reason why the sale of groceries should be prohibited, the grocers maintain.

But Mr. Walsh asserts that as long as the law remains on the statute books his department will prosecute violations. Only ice cream, candy and confections may be sold on Sunday, the law provides. Bakeries are violating the law just as flagrantly as the grocers, they say.

### MAJOR MacLAREN WINGS HIS WAY TO BURMA TODAY

(By United Press)  
London, May 21.—Major MacLaren, British round the world flier, left Calcutta today for Akyab in Burma, according to advices from the former city.

### RED VIOLENCE IN THE RUHR INCREASING

#### COMMUNIST PATROLS ARE PIC- KETING MANY MINES

#### MORE THAN SIX THOUSAND MIN- ERS ARE REPORTED IDLE

(By United Press)  
Bochum, Germany, May 21.—Red violence in the Ruhr is increasing.

Communist patrols are picketing mines in many sections and using force to prevent anyone wanting to work from approaching the pits.

More than 6,000 miners now are idle. At Marl police were forced to intervene when reds attacked strike-breakers.

At Bochum young communists sought to install strike pickets everywhere and prevent workers from entering the mines, even if only for the purpose of keeping the pumps going.

At Langenbochum the police were called out because of violence.

### DENSE FOG FACES YANKEE WORLD FLIERS

(By United Press)

Tokio, May 21.—Dense fog obscured the aerial highway down which the American round-the-world airmen were due to complete their flight to the main island of Japan.

The American fliers had hopped from Hitokappu Bay on the little island of Yotorofu to reach Japan proper before nightfall. As no word had come from Minato late today, however, it was believed that the airmen had been held up by unfavorable weather conditions. Great disappointment was felt here when it developed that the reports from Minato yesterday to the effect that the aviators had arrived there had been garbled in transmission and that Lieutenants Smith, Wade and Nelson had not left Yotorofu.

Earlier wireless messages from the north indicated that they had reached Hondo, a dispatch today. A message from Minato at noon today said that the fog seemed to be thinning somewhat and that the depression was moving northward. Capt. Magao of the Japanese navy had word from Hitokappu at 11 a. m. today that the fliers may have started after the weather cleared before noon. One message said that they had arrived in the province of Kushiro on the island of Hokkaido, just north of the principal island on which Tokio is located.

Permission to make this stop was granted the Americans.

### FARMER-LABOR FISTS ENCOUNTER HECKLERS' NOSES

(By United Press)  
Delano, Minn., May 21.—First blood in the political campaign was drawn here last night—from various noses by Farmer-Labor fists.

Floyd B. Olson and Martin Odlund, Farmer-Labor candidates for governor and tenth district congressman, Odlund paid tribute to LaFollette, and hecklers cried "traitor."

The hecklers were collared, subdued and taken away.

### BILLY SUNDAY TAKES FLING AT DR. BUTLER

#### RIDICULES THE EDUCATOR'S STAND ON PROHIBI- TION

#### "WHY NOT CUT OUT THE LAW AGAINST MURDER?" SAID SUNDAY

(By United Press)  
Rochester, Minn., May 21.—Billy Sunday felt well enough today to take a fling at Dr. Murray Butler on his prohibition stand.

"Why, he knows it is pure poppycock," the evangelist smiled. "Why not cut out the law against murder?" Sunday's condition is not looked upon as serious.

Following this in the jargon of movieland he talked about his condition for the first time to the United Press.

"The doctors of Mayo clinic have me on location," he chuckled. "They are trying to find out where the flareup is that is bungling the continuity of the scenes. It is going to be some picture after they get through shooting."

"They have got a director and a whole crew of cameramen. We are having a long wait on the lot just now. I guess somebody bungled the lights and the music stopped."

"This little delay won't interfere with our work, will it, ma?" he turned to his wife, who is suffering from a fractured pelvic bone as a result of being struck by an auto truck.

"We are going to hold the first meeting in Elmira, N. Y., and then go to Nashville, Tenn., where I will talk about God for a little while."

"No, this won't make any change, will it, ma?"

"Not in the least," she replied, with a smile.

Depleted Reserves  
St. Paul, May 21.—The Solway State Bank at Solway, Minn., was closed today because of depleted reserves.

It had deposits of about \$60,000 and capital of \$10,000.

### NEGRO FOUND GUILTY OF MURDER

#### ROY P. HOUGHTON CHARGED WITH SLAYING ST. PAUL WOMAN

(By United Press)  
St. Paul, May 21.—Roy P. Houghton, negro, was found guilty of the murder of Mrs. Grace Mogol on March 28 by a jury here today. The verdict was murder in the second degree, which carries a provision of life sentence.

The jury had been out since yesterday afternoon.

Mrs. Mogol was attacked by a negro as she was on her way home with her nine-year old son in a snow storm. The negro knocked the boy to the ground and assaulted the woman, and shot her twice when the boy returned with help. She died almost instantly.

Several days later Houghton was arrested as a suspect. He was spirited to Minneapolis and Stillwater when mob violence threatened. Detectives presented an alleged confession at the trial which Houghton repudiated.

Jacob Mogol, husband of the slain woman, attacked Houghton at police headquarters, where he had been brought for inspection by women whom he was believed to have attacked. Mrs. C. M. Molitor positively identified him as the negro who had assaulted her the same night Mrs. Mogol was killed.

The nine-year-old son of Mrs. Mogol was the state's chief witness. Houghton was sentenced to life imprisonment at Stillwater.

### FRANCE WANTS D'OISY TO GO ON WITH FLIGHT

(By United Press)  
Paris, May 21.—France wants Capt. D'Oisy, whose plane was completely wrecked in a crash at Shanghai, to carry on with his Paris-to-Tokio flight.

The minister of the colonies and the chief of the French aeronautical service have cabled their agents in the Orient ordering that everything possible be done to enable the airman to get to Tokio. A new plane will be shipped to him from Paris if he desires.

Apparently there is no chance of D'Oisy continuing otherwise, for he cabled "overturned landing in ditch, machine completely wrecked, I uninjured."

### Crazed Mother Burns Babe, Shoots Boy, Then Kills Herself

(By United Press)  
Canton, Ohio, May 21.—Driven temporarily insane by ill health, Mrs. Laura Shively, 42, burned her six-months-old babe to death, shot her six-year-old son through the temple, and then fired a bullet into her own brain today.

### GOVERNMENT TO START PAYING BONUS AWARD

#### THREE DEPARTMENTS COM- MENCE THEIR PRODIGIOUS TASK

#### SEARCH ACRES OF RECORDS AND STUDY MILLIONS OF PAPERS

Washington, May 21.—Three government departments have started the prodigious task of preparation to pay the veterans the bonus congress gave them.

The war and navy department began search of acres of records and scrutiny of millions of papers, while the veterans bureau which will issue the bonus certificates began to whip its administrative machinery into shape.

The war department has by far the greatest task, with files of 5,250,000 possible claimants to go through. The navy department fares more easily with only 551,736 enlisted men, 11,880 women Yeomen and 80,000 marines. Of all these, it is estimated 3,427,866 will get some form of bonus.

Arrangements have been made to distribute application blanks thru postoffices, the American Legion, various military headquarters and various civic societies.

The war department issued the following list of "don'ts" to veterans to which it is said, which if followed, will speed up the work.

1—Do not write for application blanks. They will be distributed as soon as prepared.

2—Read instructions carefully.

3—Do not pay fees other than notary charges required in certain cases.

4—Do not write the war department for information required on the blank. Do the best you can from memory.

5—Mail applications in the envelopes which will be distributed with the blanks.

#### CASHIER SENTENCED TO STILLWATER

(By United Press)  
Fergus Falls, Minn., May 21.—C. H. Dahlstrom, former cashier of the State Bank of Parker's Prairie, was sentenced to five years at Stillwater today following conviction on a charge of embezzling \$600 from the bank. He was tried in district court.

### PRESIDENT IN FUTILE EFFORTS OF MODIFYING

#### AMERICA AND JAPAN MAY NEI- THER HAVE AMBASSADOR IN OTHER'S CAPITAL

#### RESIGNATION OF CYRUS WOODS NOT ACCEPTED BY COOL- IDGE

(By United Press)  
Washington, May 21.—Despite futile efforts to modify the Japanese exclusion provision of the immigration bill, President Coolidge continued without comment on the movement designed to mitigate the affront to Japan in the proposed law, informed observers believed today.

Meanwhile the two countries are facing a situation where neither may be represented by an ambassador in the other's capital. The resignation of Cyrus Woods, American ambassador to Tokio has not been accepted by the president, but explanations seem unable to down the impression that one of the causes of Wood's retirement is the proposed exclusion law.

Ambassador Hara Hara, Japanese envoy here, reported to be on the verge of resignation, told the United Press today that he could make no statement on the subject, saying that he had no present plan and that he was "awaiting developments."

Secretary of States Hughes is in frequent conferences with President Coolidge on the Japanese situation. It is believed that Hughes will feel most of his work in the state department to have been in vain should the exclusion law result in a return of the delicate relations existing between the two powers before the Washington disarmament conference.

In the meantime Mr. Coolidge is casting about for a suitable man to take Woods' place. The name of John Hayes Hammond, noted mining engineer and chairman of the coal corporation during its brief life, is being mentioned. Hammond at one time was offered the Tokio post by President Harding.

#### COOLIDGE TO ACT SOON ON THE BILL

Washington, May 21.—President Coolidge will act soon, possibly tomorrow, on the immigration bill containing the Japanese exclusion feature, it was said today by his close advisors. Secrecy is being maintained by the administration as to what the president has decided to do.

### FINN SHOTS LUMBERJACK

(By United Press)  
Duluth, May 21.—An unidentified man was shot to death by a Finn near Cusson, a lumber camp in the Lake Vermillion district, according to a report to the coroner at Virginia today.

Coroner Crewe and deputies started for the scene and will bring the captive murderer back. Neither the name of the victim nor of his attacker could be learned at noon today. The dead man appeared to be an American.

### WILL WELCOME COUNTY AUDITORS

Jamestown, N. D., May 21.—C. B. Buckley, mayor, will welcome the county auditors here today at the opening of their state convention. Joseph Cramer, Ramsey county, president, will respond in behalf of the visitors.

#### Grave of Bourbon

Vienna, May 21.—A movement has been started to give a more royal burial ground to representatives of the French royal family of Bourbon, whose bodies lie in a dilapidated tomb of the ancient convent of the Carmelites near here.

It is likely that the Muscle Shoals group will make demands for action before adjournment; the world court group announced intention of forcing a vote upon that issue, and declarations have come from some senators that they intend to call up the special bills.

#### SENATE COMMITTEE REJECTS FORD OFFER

Washington, May 21.—By a vote of 10 to 6 the senate agricultural committee today rejected Henry Ford's offer for Muscle Shoals nitrate and power project.

The vote on the bid came in executive session shortly after the committee had announced it would end all hearings on the disposition of the project next Monday and consider its recommendation to the senate beginning Tuesday.

Details of the committee's action were not available because of secrecy while the vote was taken.

Ford's offer was endorsed by the house by an overwhelming vote last Monday. The committee's action forces supporters of the auto magnate's bid to fight to keep it on the floor of the senate for final action.

#### HOUSE AGREEMENT ON THE TAX BILL

Washington, May 21.—The house conferees today reached an agreement on the final form of the tax bill.

The agreement provides for the democratic normal and surtax rates but eliminates the provision for full publicity on income tax returns and substitutes the house flat 12½ per cent rate.

Several days later Houghton was arrested as a suspect. He was spirited to Minneapolis and Stillwater when mob violence threatened. Detectives presented an alleged confession at the trial which Houghton repudiated.

Jacob Mogol, husband of the slain woman, attacked Houghton at police headquarters, where he had been brought for inspection by women whom he was believed to have attacked. Mrs. C. M. Molitor positively identified him as the negro who had assaulted her the same night Mrs. Mogol was killed.

The nine-year-old son of Mrs. Mogol was the state's chief witness. Houghton was sentenced to life imprisonment at Stillwater.

### FRANCE WANTS D'OISY TO GO ON WITH FLIGHT

(By United Press)  
Paris, May 21.—France wants Capt. D'Oisy, whose plane was completely wrecked in a crash at Shanghai, to carry on with his Paris-to-Tokio flight.

The minister of the colonies and the chief of the French aeronautical service have cabled their agents in the Orient ordering that everything possible be done to enable the airman to get to Tokio. A new plane will be shipped to him from Paris if he desires.

Apparently there is no chance of D'Oisy continuing otherwise, for he cabled "overturned landing in ditch, machine completely wrecked, I uninjured."

### Crazed Mother Burns Babe, Shoots Boy, Then Kills Herself

(By United Press)  
Canton, Ohio, May 21.—Driven temporarily insane by ill health, Mrs. Laura Shively, 42, burned her six-months-old babe to death, shot her six-year-old son through the temple, and then fired a bullet into her own brain today.

### GOVERNMENT TO START PAYING BONUS AWARD

THREE DEPARTMENTS COMMENCE THEIR PRODIGIOUS TASK

SEARCH ACRES OF RECORDS AND STUDY MILLIONS OF PAPERS

Washington, May 21.—Three government departments have started the prodigious task of preparation to pay the veterans the bonus congress gave them.

The war and navy department began search of acres of records and scrutiny of millions of papers, while the veterans bureau which will issue the bonus certificates began to whip its administrative machinery into shape.

The war department has by far the greatest task, with files of 5,250,000 possible claimants to go through. The navy department fares more easily with only 551,736 enlisted men, 11,880 women Yeomen and 89,000 marines. Of all these, it is estimated 3,427,866 will get some form of bonus.

Arrangements have been made to distribute application blanks thru postoffices, the American Legion, various military headquarters and various civic societies.

The war department issued the following list of "don'ts" to veterans to which it is said, which if followed, will speed up the work.

1—Do not write for application blanks. They will be distributed as soon as prepared.

2—Read instructions carefully.

3—Do not pay fees other than notary charges required in certain cases.

4—Do not write the war department for information required on the blank. Do the best you can from memory.

5—Mail applications in the envelopes which will be distributed with the blanks.

#### CASHIER SENTENCED TO STILLWATER

(By United Press)  
Fergus Falls, Minn., May 21.—C. H. Dahlstrom, former cashier of the State Bank of Parker's Prairie, was sentenced to five years at Stillwater today following conviction on a charge of embezzling \$600 from the bank. He was tried in district court.

### PRESIDENT IN FUTILE EFFORTS OF MODIFYING

AMERICA AND JAPAN MAY NEITHER HAVE AMBASSADOR IN OTHER'S CAPITAL

RESIGNATION OF CYRUS WOODS NOT ACCEPTED BY COOLIDGE

(By United Press)  
Washington, May 21.—Despite futile efforts to modify the Japanese exclusion provision of the immigration bill, President Coolidge continued without comment on the movement designed to mitigate the affront to Japan in the proposed law, informed observers believed today.

Meanwhile the two countries are facing a situation where neither may be represented by an ambassador in the other's capital. The resignation of Cyrus Woods, American ambassador to Tokio has not been accepted by the president, but explanations seem unable to down the impression that one of the causes of Wood's retirement is the proposed exclusion law.

Ambassador Hara Hara, Japanese envoy here, reported to be on the verge of resignation, told the United Press today that he could make no statement on the subject, saying that he had no present plan and that he was "awaiting developments."

Secretary of States Hughes is in frequent conferences with President Coolidge on the Japanese situation. It is believed that Hughes will feel most of his work in the state department to have been in vain should the exclusion law result in a return of the delicate relations existing between the two powers before the Washington disarmament conference.

In the meantime Mr. Coolidge is casting about for a suitable man to take Woods' place. The name of John Hayes Hammond, noted mining engineer and chairman of the coal corporation during its brief life, is being mentioned. Hammond at one time was offered the Tokio post by President Harding.

#### COOLIDGE TO ACT SOON ON THE BILL

Washington, May 21.—President Coolidge will act soon, possibly tomorrow, on the immigration bill containing the Japanese exclusion feature, it was said today by his close advisors. Secrecy is being maintained by the administration as to what the president has decided to do.

#### FINN SHOTS LUMBERJACK

(By United Press)  
Duluth, May 21.—An unidentified man was shot to death by a Finn near Cusson, a lumber camp in the Lake Vermillion district, according to a report to the coroner at Virginia today.

Coroner Crewe and deputies started for the scene and will bring the captive murderer back. Neither the name of the victim nor of his attacker could be learned at noon today. The dead man appeared to be an American.

#### WILL WELCOME COUNTY AUDITORS

Jamestown, N. D., May 21.—C. B. Buckley, mayor, will welcome the county auditors here today at the opening of their state convention. Joseph Cramer, Ramsey county, president, will respond in behalf of the visitors.

#### Grave of Bourbon

Vienna, May 21.—A movement has been started to give a more royal burial ground to representatives of the French royal family of Bourbon, whose bodies lie in a dilapidated tomb of the ancient convent of the Carmelites near here.

VENTRILOQUIST  
WROTE OF HIS ART

Nicholson Famous in Days of French Restoration.

We ran across a theatrical curiosity a few days ago, says J. Vivian in Le Petit Parisien. It was one of those occasions of innocent pleasure which sometimes come to the hunters of rare plays and concerned the discovery of the memoirs of an "artiste" who enjoyed considerable fame at the time of the restoration—the ventriloquist, Nicholson.

Nicholson always began his performance with an act that made a great sensation. He appeared to be on the point of reciting a poem, but had barely opened his mouth when voices seemed to come from all parts of the house, interrupting him. For instance, there would be a lively argument between a spectator who was supposed to be in a balcony and some imaginary person in the orchestra; then an altercation would arise in the wings. Finally, the star would reveal the fact that he was doing all the talking himself.

In his memoirs Nicholson discourses on ventriloquism as a fine art, one of the first masters of which was Brabant, Francis I's valet de chambre. He insists that the ventriloquist must maintain himself at a high level of morality. By virtue of the fact that he displays a sort of miraculous power, he must enter upon his career only with honest intentions.

Nicholson prided himself on the fact that on several occasions, thanks to his art, he succeeded in winning back feeble-minded minds to right thinking.

Thus, once, when he was a guest at an Italian monastery, it appeared to him that the monks were concerning themselves too much with material things and were more careful of their spiritual grace. He decided, therefore, to give them a warning.

One day on a chapel a weird voice was heard complaining in mournful accents. It was apparent to the terrified monks that a former prior who had died long since in the odor of sanctity was warning them from his tomb that they were threatened with the eternal flames. The conversion was complete and edifying, he assures us.

Nicholson also maintained that ventriloquism could be a consolator in time of trouble. A young woman had been married to a naval officer and was in despair because a long time had passed without any word from him. Informed of the facts the worthy Nicholson imitated the voice of the absent husband, giving cheerful messages and thus reassuring the lamenting spouse. "The young woman," he declares, "was miraculously cured." He insists that she was actually threatened with madness and that this malady was averted by the supposed voice of her husband.

The ventriloquist does not tell us, however, whether the wandering sailor ever returned.

## Mystery Region

"The Vast Unknown," a region of mystery in Utah, was explored for the first time last autumn by an expedition of the National Geographic society in charge of Nell M. Judd, of the Department of American Anthropology of the National museum. Mr. Judd and his assistants spent two months in complete isolation in this unknown section of Utah. During that time they did not see a single wild animal and the only traces of human beings were remains of prehistoric Indians. Through signs placed on the rocks thousands of years ago by ancient Indians Mr. Judd was enabled to find trails over many difficult places. A number of habitations of prehistoric Americans were found in canyons. The present Indians have a horror of the locality and tell many strange tales about it. It is a country of rare beauty to those who appreciate desert scenery. Mr. Judd describes the sandstone as varying in color from a light yellow to a blood-red, and the shadows in the canyons range from hazy blue to deep purple.

## APRIL REPORT

Miss Thora Engebretson Made 89 Calls and Visited 68 Homes

## EXTENSIVE SCHOOL WORK

Group of 20 Girls Organized Into a Girl Scout Troop in Barrows

Following is the monthly report of Miss Thora Engebretson, county nurse, for the month of April, 1924:

## Calls

Eighty-nine calls were made and 68 homes visited. These include the following, bedside care, 5; instruction and demonstration, 44; (follow-up visits to school children, etc) investigation, (communicable diseases, diphtheria and measles and disaster relief and ex-service) 10; miscellaneous, 27, (visits to hospital, doctors, etc.)

## School Work

The following schools were visited and each child inspected individually: Districts 23, 39, 11, 42, 31, 43, 1, 106, 26 and 52. A total of 165 pupils were inspected individually. There were 124 defects found and 28 defects corrected. Eleven health talks were given to school children. There were three parent meetings at schools.

## Talks, Meetings, Visitors

Nine meetings were attended and six talks given. Mrs. Gray from Central Division, Red Cross, was a visitor. A novel Red Cross meeting was held while she was here. Time was limited and the roads were none too good, so it was decided to have a meeting by telephone. The different members were called by telephone and asked to "listen in" while Mrs. Gray talked.

## Maternity Work

Five prenatal and one post partum cases were visited. Two sterile obstetrical packages were given to mothers who could not afford to buy them; two meetings for the purpose of making these packages were held.

## Rural Loan Closet

One of the townships voted to spend one hundred dollars of old Red Cross funds to supply two loan closets for the use of the people in the township. One is to be kept in the north and the other in the south end.

## Clinics.

Three clinics were held, two children's and one tuberculosis. There was an attendance of eighty at the children's clinic and five at the tuberculosis clinic. Following the children's clinic the doctor gave a talk to the public in the high school auditorium.

## Special Cases

One child was taken to a local hospital and arrangements made for his case. One patient was taken to the University dispensary. While there, four state departments were visited by the county nurse.

## Organization

A group of twenty girls were organized into a Girl Scout troop, and are very enthusiastic about the work.

## Missionary Meeting

A meeting of the W. M. S. of the Evangelical church of N. E. Brainerd will be held at the parsonage on Thursday evening, May 22, at 8:00 o'clock. Mrs. M. B. Congdon is to be the leader and her topic is "Evangelicals at Work Among the Italians in the Homeland."

There is also important business to be transacted, election of officers, securing of a delegate to represent us at the state convention at South Haven June 5 to 8. Let each member not forget the dues to be paid into the treasury at this time, in order that state expenses may be met. A silver offering will be taken for the cause of missions.

All members, both active and associate, are urged to be present and all others are cordially invited to come.

Your glassware is just aching to sparkle—use Blue Devil Cleanser.

## BALDWIN CRITICIZES LABOR GOVERNMENT

(By United Press)

London, May 21.—"We have got to break this government," ex-Premier Stanley Baldwin declared in a speech here today, in which he severely criticized the labor government's policies.

He admitted it was difficult to see how the break of the MacDonald regime was to be accomplished, but expressed the belief that the labor government's early popularity was waning.

## PIKE SUPPER

Fourth Annual Event Given by Men's Club of Bethlehem Lutheran Church

The Men's club of the Bethlehem Lutheran church will hold its fourth annual pike supper on Friday of this week. The public is asked to remember the date and attend the supper.

The men were out on Tuesday evening catching the pike and had very good success. They will go out again this evening and Thursday evening to provide enough fish for the large number that are expected will be present. Rev. M. L. Hostager, former pastor of the church, motored from Two Harbors today to participate in the catching of the fish and in the supper.

## PRESENTS FLAGS TO HIGH SCHOOL

Mrs. Bertha Theviot Gives Same in Behalf of the Women's Relief Corps

## ARE OF BEAUTIFUL SILK

Schools Receiving Flags This Year are Higby School, Harrison and Lowell

Mrs. Bertha Theviot presented two American flags to the high school this afternoon in behalf of the Women's Relief Corps.

This patriotic organization gives a number of flags annually to the local schools, usually accompanied with appropriate exercises. The schools to receive the flags this year are the high school, the Harrison, and Lowell buildings. Two flags will be presented at each building.

These flags are of silk and equipped with a wall bracket. They become the permanent property of the school rooms to which they are given.

## IN KINOGRAMS NEWS REEL TODAY

Kinograms news reel, shown at the New Park theatre today and tomorrow, afternoons and evenings, gives great prominence to "Better Sires Day" of Brainerd.

It shows the presentation of the yearling Holsteins and Guernseys to the farmer caretakers, gives a panoramic view of the animals purchased by the Brainerd Chamber of Commerce, shows the farmers and others making up the crowds that day, gives fine views of the parade, with the Boys' band, Boy Scouts and various clubs taking part; shows President Charles Donnelly of the Northern Pacific railway entering Brainerd and greeted by the Chamber of Commerce committee.

## Circle No. 1

Circle No. 1 of the First Congregational church will meet tomorrow (Thursday) afternoon at the home of Mrs. W. A. Erickson. All members are requested to be present.

Swedish Baptist Ladies' Aid The Swedish Baptist Ladies' Aid will hold its monthly meeting on Thursday evening at 7:45 o'clock in the basement of the church. The ladies are requested to bring their earned dollar to this meeting. All members are urged to be present and visitors are welcome.

Bethlehem Lutheran Aid The Ladies' Aid of the Bethlehem Lutheran church will meet on Thursday afternoon in the church parlors, entertained by Mrs. Andrew Johnson and Mrs. Fred Nygaard. All members are asked to be present.

## UNSATISFACTORY SERVICE

THE DISPATCH was again delayed yesterday when electric power was shut off two hours or more in the heart of the day and linotype metal cooled and machines could not be operated. There was no storm yesterday and no heavy wind and the only explanation received locally was that there probably was high line trouble somewhere.

With no reserve power provided for emergencies, and The Northwest Paper Co. disconnected from furnishing emergency service, Brainerd is shut off entirely from power whenever something happens on the high line in our neighborhood.

A public utility such as electric power and light, is one which by the very nature of things, must supply uninterrupted service. The convenient phrase, "by act of God," cannot explain nor bolster up every occasion when the service is shot to pieces.

We hope the Minnesota Power and Light company takes some steps to provide emergency service to bridge over gaps when regular power is displaced. Such reserve power was provided by the Cuyuna Range Power company which had connections with The Northwest Paper company, the Little Falls power company and the Arvig people. Each in turn assisted the other in an emergency.

If no action is taken by the company in remedying this matter, we suggest that the water and light board and city council inquire into the service and take such action as they may deem necessary.

## OUTDOOR SHOW

THE DISPATCH gives publicity to a letter from Melvin Flansburg of Chicago which relates to the "Outdoor Exhibition" given in Chicago. It featured everything relating to a lake outing from resort displays, maps, pictures, utensils of all kinds, to tents, boats, etc. The project is a most praiseworthy one and the exhibition closed a most successful second annual show. The cost of exhibiting is one too large for the Chamber of Commerce to shoulder, but it surely was within the scope of the 10,000 Lakes Association of Minnesota, which by exhibiting, would have given publicity to all Minnesota resorts and lakes.

Mr. Flansburg writes: "On Monday evening, May 12th, I attended the Outdoor Show held in the Chicago Coliseum. I had been told there were to have been exhibits from Minnesota, and had anticipated spending a very enjoyable evening looking over the exhibits from my home town, because surely the people of Brainerd would take advantage of such a chance to show the people of Chicago not only how and where to spend a very enjoyable vacation, but also to grasp the opportunity to sell lots and summer homes on the many lakes near Brainerd and throughout the entire Crow Wing county."

"My disappointment was great upon finding that Minnesota was not represented in that particular location. The towns which did represent Minnesota were Ely, Tower and Vermillion Lake. "In my estimation these towns do not represent the beauty to be found in the state."

## CORDIAL RELATIONS

THE ROTAMETER, official organ of the Rotary club of Brainerd, makes such a pertinent allusion to the recent Teachers' Day luncheon that the Dispatch quotes therefrom, as showing the cordial relations established between club and teachers.

"The May 13 Rotary luncheon was Teachers' Day and came as a surprise to most of the members. The tables were nicely decorated with cut-flowers and place cards had been laid at each plate with original verses thereon appropriate to the personality of each member of the club. The teachers of the Brainerd schools were entertaining the Rotarians at a special dinner and the only thing lacking was the presence of the teachers themselves, whom school duties and the large number made it impracticable to be present at a luncheon hour between 12 and 1:30 p. m."

"It is very fortunate indeed that the friendly and cordial relationship between the 75 teachers of the Brainerd schools and a club like that of the Rotary club exists as it does today in this city."

"Each organization has a work to do in Brainerd that is of the highest importance to the welfare of this city and each can be of great mutual benefit to the other. The teachers by their annual entertainment of the Rotarians at luncheon clearly indicate their appreciation of the sympathetic interests and generous courtesy displayed by the Rotarians toward the educational work of this city."

## ROUND THE WORLD FLIERS

THE equanimity displayed by the American round the world fliers all contributes to their making a successful globe girdling epochal tour. Pelletier, on the other hand, with the usual impetuosity of the French, tore from France towards Japan in a series of wild bursts of speed and wound up by landing his machine in a mudbank near Shanghai.

The Americans have breasted the worst stretch of their tour, combatting with rare courage the shifting and treacherous winds and snows and fogs of the bleak Behring strait territory. From now on it will be better sailing. The three planes are also making better progress, unhampered by a flagship which seemed to be operating under a jinx of some kind. Instead of the flagship pointing the way for the rest of the fleet, it had brought up the rear like the collier of a fleet.

The British went fairly well until they encountered trouble in India and had to send to England for spare parts. Major MacLaren has now arrived at Burma with his machine.

The stand taken by the Dispatch has been that the best flight and crowned with success will come to the party which works consistently and makes no dependence on brilliant spurts. Steady plugging is what counts and that is the course pursued by the Yankees.

THE Houston Post, a democratic paper, admits that the Mellon plan was based on sound principles. The substitute plans, says the Post, are makeshifts.

THE Atlanta Constitution says the senate doesn't think it a bit wrong to tax the patience of the people.

### UNSATISFACTORY SERVICE

THE DISPATCH was again delayed yesterday when electric power was shut off two hours or more in the heart of the day and linotype metal cooled and machines could not be operated. There was no storm yesterday and no heavy wind and the only explanation received locally was that there probably was high line trouble somewhere.

With no reserve power provided for emergencies, and The Northwest Paper Co. disconnected from furnishing emergency service, Brainerd is shut off entirely from power whenever something happens on the high line in our neighborhood.

A public utility such as electric power and light, is one which by the very nature of things, must supply uninterrupted service. The convenient phrase, "by act of God," cannot explain nor bolster up every occasion when the service is shot to pieces.

We hope the Minnesota Power and Light company takes some steps to provide emergency service to bridge over gaps when regular power is displaced. Such reserve power was provided by the Cuyuna Range Power company which had connections with The Northwest Paper company, the Little Falls power company and the Arvig-people. Each in turn assisted the other in an emergency.

If no action is taken by the company in remedying this matter, we suggest that the water and light board and city council inquire into the service and take such action as they may deem necessary.

### OUTDOOR SHOW

THE DISPATCH gives publicity to a letter from Melvin Flansburg of Chicago which relates to the "Outdoor Exhibition" given in Chicago. It featured everything relating to a lake outing from resort displays, maps, pictures, utensils of all kinds, to tents, boats, etc. The project is a most praiseworthy one and the exhibition closed a most successful second annual show. The cost of exhibiting is one too large for the Chamber of Commerce to shoulder, but it surely was within the scope of the 10,000 Lakes Association of Minnesota, which by exhibiting, would have given publicity to all Minnesota resorts and lakes.

Mr. Flansburg writes: "On Monday evening, May 12th, I attended the Outdoor Show held in the Chicago Coliseum. ## CAMP PLANS

A. A. Gieriet, General Chairman of Camping Committee, Gives Out Statement

### NEW FEATURES IN PROGRAM

Relative of Chief Hole-In-The-Day Will Visit Camp This Summer

Plans for the 1924 Boy Scout Camp are nearly completed according to a statement by A. A. Gieriet, general chairman of the camping committee. Many new features are to be injected into the program this year, and the camp itself is to be made as nearly 100 per cent perfect from the standpoint of safety as is possible, the rules of the national camping department for minimum requirements being carried out in every detail. Last year over 2,700 Boy Scout camps were in operation, with a registration of over 250,000 Scouts, and the hazards of camp life were so reduced to the minimum that only minor injuries were of record. In this region of thousands of lakes and streams the water is one of the best friends of man, woman or child if they but know how to use it with safety, and it will be one of the special features of the camp program this year that every boy in camp learn to swim.

The American Red Cross, through their safety institute, are trying to arrange for a member of their life saving corps to be in attendance and give instructions and examinations that will lead to the awarding of the Junior Life Savers emblem. It will be well worth the time of every boy to take advantage of this instruction that he may "Be Prepared" in the saving of life from water accidents. The Scout Camp bears the name of "Pug-O-Ma-Ge-Shig," more commonly known as Hole-In-The-Day, an Indian chieftain who formerly was a resident of the land between Round and Long lakes, and the historical, romantic and traditional story of this tribe is closely interwoven into the camp life of the boy.

Scout Executive E. W. Stimble, who is continually on the lookout for Indian lore to work into his program, has discovered a blood relative of this famous chieftain and has made arrangements for this full-blooded Chippewa, who is also a chieftain, to spend a day or more at camp "Pug-O-Ma-Ge-Shig" and bring some of his real American brothers with him and hold an old time council fire and tell of the life and adventures of old "Pug."

The exact period in which these Indians will visit camp cannot be announced as every boy would want to get into camp at that time, but the date will be given out so that all Scouts not at camp will have an opportunity to come out for the day.

The camping committee have invested in permanent camp equipment nearly \$1,500 to make the Crow Wing county council camp an ideal place to send your boy for an outing that he may become physically strong, mentally awake and morally straight, and your contribution to last year's budget, as well as this year's contributions, could be spent for no better purpose than this for the upbuilding of the body and mind of the boys that they may be best assume the responsibilities that will be theirs on attaining their legal age as citizens.

cent corporation tax for the graduated scale in the senate bill.

The conferees' report will be drawn up today and submitted for action in both houses late today or tomorrow.

The bill as agreed upon resembles the house measure with the exception of the normal and surtax rates which stand as passed by the senate.

No great difficulty in securing approval of the agreement in either house is looked for, though the senate progressives may fight the elimination of the publicity provision.

Rejection of the graduated corporation tax scale and publicity provision eliminates two provisions which were most objectionable to the president.

Conferees believe that Mr. Coolidge will accept the bill and leave raising the revenue needed to meet bonus financing to the next session of congress.

### COMPROMISE TAX BILL

Washington, May 21.—A compromise tax bill that will reduce the tax levy \$472,620,000 annually was

agreed upon unanimously by the senate and house conferees today.

This action practically insures final approval of the measure in both houses by the end of the week, and administration republicans feel satisfied that the president will make it a law with his signature.

The first effect of the bill as approved will be a 25 per cent reduction of taxes on 1923 incomes, payable this year.

Factions in both houses believe that the measure will be adopted, and both republicans and democrats stated that they believed the compromise would be made a law by the scheduled adjournment two weeks from Saturday.

The compromise agreement gives the democrats a victory for their normal and surtax levy upon incomes and in effect the democrats recede from their estate, gift and corporation levies and publicity against which President Coolidge had lodged his objection. The compromise was negotiated to enable the president to sign the bill.

### INVESTIGATORS WERE BEING INVESTIGATED

Washington, May 21.—A story of an alleged plot by special agents of the department of justice to "get something" on members of the senate Daugherty investigating committee was told to the committee today by W. D. Duckstein, private secretary to E. B. McLean, Washington publisher.

Duckstein named the agents as P. J. O'Brien and Walter Pettit.

"What did these men tell you?" asked Wheeler.

"O'Brien said that they were the investigating committee," said Duckstein.

"They said they had a crew with them—wire tappers and everything. They were investigating you, Senator Wheeler, and Senator Brookhart."

## PROCEEDINGS

Disposition Made of Various Cases on the Court Docket Wednesday

### BUSCHMAN FOUND GUILTY

In the Case of R. M. Adams vs H. K. Dimmick, Court Found for the Plaintiff

In district court the case of the state against David Barry was continued by consent. The case of the state against Ursula Vogel was dismissed on motion of the county attorney.

The case of the state against John Flannigan and David Barry was continued by consent, and the case of the state against Victoria Stimich was continued by order of the court.

The jury in the case of R. M. Adams against Ed Watts consisted of New Bowman, Mrs. F. M. Kelly, W. P. Caughey, Earl Moore, Louis Stirewalt, Oscar Peterson, E. G. Warner, Mrs. Isabel Thayer, Mrs. Bert Conliff, Mrs. N. Kauffman, Andrew Anderson and J. A. McGill. The jury has not as yet brought in its verdict.

This case concerned certain accounts that the plaintiff alleges were owed him by Mr. Watts, the latter contending that he has counter claims.

The jury in the case of the state against Buschman, charged with the manufacture of intoxicating liquor, brought in a verdict finding the defendant guilty as charged in the information. Mrs. A. C. Weber was foreman of the jury.

Buschman was brought before the court and sentenced to pay a fine of \$300 and serve sixty days in the Crow Wing county jail, the sentence being stayed until November 1st, provided the fine is paid promptly and a bond of \$500 is furnished for the defendant's appearance on Nov. 1st.

The case of R. M. Adams against H. K. Dimmick was tried on Wednesday.

day afternoon. The jury trial was waived and the court found in favor of the plaintiff. The case concerns certain store accounts said to have been owed the plaintiff. Both parties are from Ironton, it is said. C. A. Ryan was attorney for Adams and G. W. Freerks for Dimmick.

### WILD RICE AS FOOD ARTICLE

(By United Press)

St. Paul, May 21.—Wild rice, such as grows in shallow lakes and sluggish streams and is used extensively as a food by Indians, and such as is served with game, is better as a food than the common polished rice of the household larder.

At least, that is indicated by extensive experiments carried on by Cornelia Kennedy of the division of agricultural biochemistry of the Minnesota Agricultural Experiment station.

Miss Kennedy's deductions are based on results obtained in the feeding of rats on wild rice and the more common kind.

The conclusions are: "Wild rice has a greater food value than the cultivated polished rice, because its proteins are of better quality, and because it contains adequate amounts of vitamin B which is necessary for animal growth, which is not true of polished cultivated rice."

However, it must not be assumed that wild rice is of itself an adequate food. It is not. Wild rice resembles many other cereals in containing proteins of rather low biological value. It is deficient in one of the other vitamins also. Wild rice is better than the common rice of commerce, therefore it lacks certain essentials necessary in the diet.

Sioux Falls, S. D., May 21.—In a final effort to prove whether Arthur Frazier gave his life in the world war or whether he is alive and another buried under his name plate, a grave at Niobrara, Neb., will be opened by American Legion officers today. A body supposed to be that of Frazier, an Indian, was shipped home for burial.

"Do you remember the time when your father drove a donkey cart?" The candidate for election fixed his glasses and gazed thoughtfully at the interrupter. Then he replied: "As a matter of fact, I had quite forgotten the cart. But I am thankful to see the donkey is still alive."

### PROCEEDINGS

Disposition Made of Various Cases on the Court Docket Wednesday

#### BUSCHMAN FOUND GUILTY

In the Case of R. M. Adams vs H. K. Dimmick, Court Found for the Plaintiff

In district court the case of the state against David Barry was continued by consent. The case of the state against Ursula Vogel was dismissed on motion of the county attorney.

The case of the state against John Flannigan and David Barry was continued by consent, and the case of the state against Victoria Stimich was continued by order of the court.

The jury in the case of R. M. Adams against Ed Watts consisted of New Bowman, Mrs. F. M. Kelly, W. P. Caughey, Earl Moore, Louis Stirewalt, Oscar Peterson, E. G. Warner, Mrs. Isabel Thayer, Mrs. Bert Conliff, Mrs. N. Kauffman, Andrew Anderson and J. A. McCall. The jury has not as yet brought in its verdict.

This case concerned certain accounts that the plaintiff alleges were owed him by Mr. Watts, the latter contending that he has counter claims.

The jury in the case of the state against Buschman, charged with the manufacture of intoxicating liquor, brought in a verdict finding the defendant guilty as charged in the information. Mrs. A. C. Weber was foreman of the jury.

Buschman was brought before the court and sentenced to pay a fine of \$300 and serve sixty days in the Crow Wing county jail, the sentence being stayed until November 1st, provided the fine is paid promptly, and a bond of \$500 is furnished for the defendant's appearance on Nov. 1st.

The case of R. M. Adams against H. K. Dimmick was tried on Wednesday afternoon.

The jury trial was waived and the court found in favor of the plaintiff. The case concerns certain store accounts said to have been owed the plaintiff. Both parties are from Ironton, it is said. C. A. Ryan was attorney for Adams and G. W. Freerks for Dimmick.

#### WILD RICE AS FOOD ARTICLE

(By United Press)

St. Paul, May 21.—Wild rice, such as grows in shallow lakes and sluggish streams and is used extensively as a food by Indians, and such as is served with game, is better as a food than the common polished rice of the household larder.

At least, that is indicated by extensive experiments carried on by Cornelia Kennedy of the division of agricultural biochemistry of the Minnesota Agricultural Experiment station.

Miss Kennedy's deductions are based on results obtained in the feeding of rats on wild rice and the more common kind.

The conclusions are: "Wild rice has a greater food value than the cultivated polished rice, because its proteins are of better quality, and because it contains adequate amounts of vitamin B which is necessary for animal growth, which is not true of polished cultivated rice."

However, it must not be assumed that wild rice is of itself an adequate food. It is not. Wild rice resembles many other cereals in containing proteins of rather low biological value. It is deficient in one of the other vitamins also. Wild rice is better than the common rice of commerce, therefore it lacks certain essentials necessary in the diet.

Sioux Falls, S. D., May 21.—In a final effort to prove whether Arthur Frazier gave his life in the world war or whether he is alive and another buried under his name plate, a grave at Niobrara, Neb., will be opened by American Legion officers today. A body supposed to be that of Frazier, an Indian, was shipped home for burial.

## LITTLE CHICKS NEED CAREFUL ATTENTION

(Prepared by the United States Department of Agriculture.)

The artificial method of brooding chickens consists in supplying, artificially, heat as nearly as possible like that furnished by the hen under natural conditions. The temperature of a hen is about 106 degrees F., but as hens seldom sit closely on chickens, the latter do not receive this degree of heat. Hens adapt their methods of brooding to conditions, such as outside temperature, size of the chickens, and wet weather, and the operator of an artificial brooder must meet these conditions as nearly as he can. Some of the most important faults in the management of brooders are overcrowding and lack of ventilation and the failure of chickens to get sufficient exercise. The brooder should supply the proper temperature, be readily adapted to meet the changes in weather conditions, be easy to clean, and be well ventilated.

Chickens are usually left in the incubator from 24 to 36 hours after hatching, without feeding, before they are removed to the brooder, which should have been in operation for three or four days at the proper temperature for receiving chickens. A beginner, says the United States Department of Agriculture, should try this brooding system carefully before he uses it. After being placed in the brooder the chickens can be given feed and water. Subsequent loss in chickens is frequently due to chilling received while taking them from the incubator to the brooder. In cool or cold weather they should be moved in a covered basket or other receptacle.

Brooder houses should have from 1/2 to 2 inches of sand, dry dirt, cut clover, or chaff spread over the floor and in the brooder pen. The hovers should be cleaned frequently, as cleanliness is essential in raising chickens successfully.

When chickens are first put into the brooder they should be confined under or around the hover by placing a board or wire frame a few inches outside. The fence or guard should be moved farther and farther away from the hover and discarded entirely when the chickens are three or four days old or when they have learned to return to the source of the heat. Young chickens should be closely watched to see that they do not huddle or get chilled. They should be allowed to run on the ground whenever the weather is favorable, as they do much better than when kept continuously on cement or board floors.

## Practical Suggestions for Getting Clean Eggs

The increasing number of graded eggs that are shipped makes it necessary that every practicable means be employed to keep eggs clean. The greatest help, outside of clean straw on the floor and in the nests, is a screen shutting the hens off the roosts during the day. A screen made of poultry netting is lowered in the morning and remains down until time for the hens to go to roost. Cleaning the dropping boards daily will not help so much as the use of one of these screens.

An added advantage is the fact that a hen on the floor is encouraged to activity. The hens that spend any great portion of their time on the roosts are fit subjects for colds and roup.

The practice of placing perches a foot or so above the dropping boards leads to soiled feet, soiled perches and soiled eggs. The hens, instead of walking on the perches, walk on the dropping boards and their feet become badly soiled.

Gathering eggs twice daily is also a help in producing cleaner eggs. By all means supply a plentiful number of nests. Eggs laid on the floor are invariably soiled. A nest may have eight or ten clean eggs in it and the entire number may be soiled by the hen laying the next egg.

\*\*\*\*\*  
**Poultry Notes**  
 \*\*\*\*\*  
 Egg-eating hens can be cured with a dose of iron—a hatchet.

The pullets must mature by November so they will begin to lay when eggs are high in price.

The Rhode Island Reds as a breed are usually considered vigorous and thrifty as any other breed.

If the chicks are inclined to fill their crops with buttermilk instead of with mash, give them something to eat before the buttermilk is left before them.

The dirt floor in laying house is a carrier of disease, unless five or six inches of the soil are removed and replaced each year. Board floors are all right, but expensive. Concrete floors are the most economical in the end.

Enough roosts should be provided in a poultry house to allow eight inches per bird. The roosts should be nine inches from the front of the dropping boards and nine inches from the back and they should be fourteen inches apart.

## STRANGE WILL OF ENGLISH ENGINEER

### Directed That All of His Books Be Burned.

The British courts have been occupied of late with a curious case, which turns on the right of a person to provide by will for the destruction of his property. The will in question is the testament of a retired engineer who had passed his active life in India, and who went back to England to shut himself up in a room in a London hotel and devote his days and nights to the study of English authors of the Shakespearean period. He collected a library that contains many rare and valuable folios and quartos and kept it in storage, bringing books to his hotel as he wanted them to study or annotate. When he died he left a will which he directed that all his books be burned, in order that other scholars might not see and use his marginal notes.

Of course the singularity of the will arrested public attention, and book-lovers who knew the value of the collection quite apart from—perhaps in spite of—the engineer's scribbled comments took action to postpone the execution of the will until it could be determined whether there was not some way of saving the books.

We have not learned what decision, if any, the courts have made, but it seems that legal ingenuity should be able to find some way of preserving the venerable volumes. Certainly common sense, if it were allowed to control, would set the will aside. The state has long had the power to determine, if it pleases, how much of a man's property he shall devise, and it has also asserted its authority to limit his right to distribute what he leaves. Why, then, should it lack the power to nullify his order to destroy it?

Conceivably a man might direct his executors to burn down a house to which he was attached, in order that no one else should ever enjoy it; or a woman might order her jewels to be destroyed in order that no one else might ever wear them. Would not a court be justified in setting aside such wills as those on the ground that the testators were of unsound mind—on one point at least? How valuable the engineer's library is we do not know; but it is incredible that the courts would permit such a library, for example, as that of Mr. Henry E. Huntington in this country to be destroyed. Mr. Huntington himself would, of course, be more horrified than any one else at the idea of burning the books that he has so lovingly collected, but would not any one of sound mind shrink from such an act of vandalism? Perhaps the courts may direct that

the laborious notes of the retired engineer be erased, and that the volumes, thus purged of his scholarship, be preserved. The world can probably get along very well without his comments—we have not heard of any unseemly competition among English scholars for the chance to examine them—but the old folios, we hope, will survive for many another bookworm to possess and enjoy.—Youth's Companion.

## Little Known Animals

The open savannah forests of the Transvaal low veldt, in South Africa, harbors a wealth of game unheard of in most parts of the globe, writes Nils B. Eckbo, in American Forests and Forest Life. There is the blue wildebeest in herds of 50 or more, roaming the veldt like the buffalo in the United States years ago. The sable and roan are antelopes of great size and wonderful fighters. The waterbuck is a more peaceful animal, resembling somewhat the elks of Jackson Hole, Wyo., with the exception of the horns. The impala, a small antelope, is considered the prettiest of them all. The kudu is an unattractive, while the kudu is a stately animal which I have not had the good fortune to meet. The zebra is common but is not killed for its meat, and the ostrich is protected. Crocodiles are plentiful along the rivers, and snakes, leopards, and lions are not uncommon.

## Had Good Excuse

The office boy had evolved many excuses, some of them so weird as to indicate that he had been taking his cue from the news of the day. The boss was getting peevish and the manager had instructions that the next excuse would have to be good enough to stand rigid investigation. The occasion soon arrived, but again the boy had the best of it. Meeting the manager in the corridor, the boss demanded: "Where was the office boy yesterday?"

"He pleads loss of memory."

## Why it's True Blue

THE Oakland Six is true blue because it was designed with one very definite purpose in mind—to make it the finest light six in its class. Take Oakland closed cars for example. Here are real automobiles. They are true blue because their distinctive Fisher-built bodies are real closed car bodies—with no makeshifts nor compromises entering into their construction or appointments.

### Oakland's Six-Cylinder Smoothness Means Greater Closed-Car Comfort

The Oakland engine is true blue because in it the natural advantages of a "Six" have been developed to a remarkable degree. There is freedom from annoying vibration, which is essential to complete closed-car satisfaction; there is extreme flexibility which makes gear changing rarely necessary; there is a surprising ability to respond to unusual demands quickly and without fuss—all of which qualities you will surely seek in selecting your next closed-car.

Then there are four-wheel brakes (you certainly should not buy a car without this proved essential); exclusive centralized controls on the steering wheel; a special body finish which retains its lustre indefinitely, and a dozen other features.

Isn't it true that the problem of choosing the right car is merely a matter of getting the most and the best for your money? Examine the True Blue Oakland Six. Drive it yourself. We welcome frank comparisons.

## Why it's True Blue

THE Oakland Six is true blue because it was designed with one very definite purpose in mind—to make it the finest light six in its class. Take Oakland closed cars for example. Here are real automobiles. They are true blue because their distinctive Fisher-built bodies are real closed car bodies—with no makeshifts nor compromises entering into their construction or appointments.

**Oakland's Six-Cylinder Smoothness Means Greater Closed-Car Comfort**

The Oakland engine is true blue because in it the natural advantages of a "Six" have been developed to a remarkable degree. There is freedom from annoying vibration, which is essential to complete closed-car satisfaction; there is extreme flexibility which makes gear changing rarely necessary; there is a surprising ability to respond to unusual demands quickly and without fuss—all of which qualities you will surely seek in selecting your next closed-car.

Then there are four-wheel brakes (you certainly should not buy a car without this proved essential); exclusive centralized controls on the steering wheel; a special body finish which retains its lustre indefinitely, and a dozen other features.

Isn't it true that the problem of choosing the right car is merely a matter of getting the most and the best for your money? Examine the True Blue Oakland Six. Drive it yourself. We welcome frank comparisons.

## "Y" REOPENED ON FRIDAY

Structure Has Been Newly Repaired  
and Redecorated in Fine  
Shape

### OPEN HOUSE PLANNED

Clean and Wholesome Appearance  
Will Encourage All Branches  
of Athletics

The newly repaired and redecorated Y. M. C. A. building will be reopened on Friday, May 23rd, after having been closed for the past two months to allow for these improvements.

The association will hold open house from two until 5:30 o'clock in the afternoon, and everyone, men, women, boys and girls, are cordially invited to visit the building and inspect the changes that have been made. In the evening the public is again invited to attend an especially prepared program of music and talk on the main floor of the building.

The alterations and repairs have been made with a view toward attractiveness and cleanliness, rather than to make any drastic change in the structure itself. Believing themselves pledged to provide a suitable gathering place for the youth of Brainerd, the board of directors and others interested have endeavored to make the Y. M. C. A. clean and wholesome in appearance and atmosphere.

With the building in condition, gymnasium classes will be organized. Space is available for a handball court. Volley ball is sure to prove popular, and boxing will undoubtedly have many adherents. A new set of gloves has been ordered as well as a punching bag.

Several business men have expressed a desire to enter a business men's gym class, and it is expected that such a class will be organized. Several horseshoe courts are planned for the lot north of the building.

Best of all, when one has finished exercising, he may step into a new shower room and find a clean place to take a bath.

Alfred Dillan, secretary of the association, is preparing the complete program of Friday's activities, which will appear in Thursday's Dispatch.

### HOUSES FOR SALE

The Board of Education of the Brainerd School District will receive sealed "Bids" at the office of the secretary, Louis F. Hohman, 214 S. 6th St., Brainerd, Minn., up to the hour of seven o'clock P. M., Tuesday, June 3rd, 1924, for the purchase of the following buildings:

One brick veneer building on S. Pine St., and known as No. 513 and now occupied by Mr. A. B. Anderson. Also one shed building on above described property.

One frame building in good condition and located on S. 5th St., and known as No. 601 and now occupied by a Mrs. Johnson.

One building erected for a barn, but never used for this purpose and located also on above described property or No. 501 S. 5th St. Also all smaller buildings on these premises.

**CONDITIONS:** Successful "Bidders" must remove buildings from the Brainerd school district property by the first day of August, 1924. If buildings, or any one of said buildings, are to be wrecked and then removed by the successful "Bidder," then all rubbish must be moved off the school property by the date noted above and the property to be left in a clean and sanitary condition.

"Bidders" must accompany their proposals with a certified check to the amount of 25 per cent of their "Bid" said check to be made payable to Mr. M. E. Morrison, treasurer of the Brainerd School District. Said certified checks to be returned to unsuccessful "Bidders."

Board of Education of the Brainerd School District reserves the right to reject any or all "Bids."

## Only One Result

The Chiropractor most assuredly locates the CAUSE of disease and eliminates it. Without cause there can be no effect. There can be only one result of such elimination. Health will follow just as naturally as water will flow when the thing that holds it back is removed. The majority of so-called disease is caused by subluxation (displacement) of the vertebrae (small bones of the spine). In every such instance these vertebrae have to be placed in adjustment to allow the proper flow of the vital force. This is the first duty of the Chiropractor. Consultation and Spinal Analysis Free.

## Only One Result

The Chiropractor most assuredly locates the CAUSE of disease and eliminates it. Without cause there can be no effect. There can be only one result of such elimination. Health will follow just as naturally as water will flow when the thing that holds it back is removed. The majority of so-called diseases are caused by subluxation (displacement) of the vertebrae (small bones of the spine). In every such instance these vertebrae have to be placed in adjustment to allow the proper flow of the vital force. This is the first duty of the Chiropractor. Consultation and Spinal Analysis Free.

## LEONARD HAS BAD ATTACK OF STAGE FEVER

By HENRY L. FARRELL  
United Press Sports Editor

New York, May 21.—Benny Leonard has developed so much enthusiasm for the theatrical profession and he professes to see such a future in it that it would be no great surprise if he announced his retirement from the ring after the outdoor season.

When a champion in these days of few fights and immense purses talks of retirement, the public is justified in considering the conversation to be a lot of bunk.

Leonard, as the champion lightweight of the world is, at the very least, a \$200,000-a-year man, and he is not in his thirties. A surgeon, a lawyer, or an engineer, who has made himself worth \$200,000 a year before he passed his twenties, would be mentally deficient if he gave up his business and started in the practice of a new profession.

While it is admitted that the boxer hasn't a profession as permanent as a young man with a skilled technical trade, it seems that Leonard has several years ahead of him, and even a few years at such a handsome salary would put the ordinary tradesman at ease for life.

Leonard, however, does not look at it that way. He has the theatrical bug and has it bad, but he has some sensible arguments to show that his desire to get out of the boxing business is not a fad of the moment or a silly hobby.

While he was being made up recently by a star cosmetic thrower in a New York movie studio, where he was to go through a 60-round fight for the hand of a movie queen, Leonard unburdened himself of some of his ideas about the boxing business.

"This commission idea of government is spoiling the game," he said. "They try to tell a boxer what he must do. They tell a promoter how much he can charge, how many spectators he can seat and what boxers he can match. The New York commission got on me a few days ago and told me that I had to defend the title. I told the commissioners I was ready to fight if they would get an opponent for me, and they had to admit that it would be a job for them to find an opponent."

"The newspapers play up the exorbitant purses that boxers get and the reformers complain about it. Because of the prominence given in the news to purses paid to fighters, the public gets the idea that boxers are the highest paid performers in the world. They are not. Supposing I do make \$300,000 a year, that is small compared to Al Jolson's million dollars a year and the salaries and income of a half million dollars that several other star actors get."

## BENEFIT DANCE

### BY THE CROSBY- IRONTON TEAM

TO RAISE FUNDS TO BUY UNIFORMS FOR TEAM IN CENTRAL MINN. LEAGUE

TO BE GIVEN IN CROSBY ARMORY ON THURSDAY EVENING, MAY 22ND

The Crosby-Ironton baseball team will give a benefit dance in Crosby armory on Thursday evening, May 22, to raise money to buy uniforms for their appearance in the Central Minnesota league.

LaFevre's range orchestra of eight pieces has been engaged for the dance. It comes on the same evening as the Elks' big time on the range, and many of the Elks are expected to attend the dance.

### Radio Fans Dodge Tax

Between 100,000 and 200,000 people in England have been using radio receiving sets illegally by listening in on broadcast programs without paying the license fee required in that country.

### Dangerous

It is said that a soft answer turneth away wrath, but occasionally a soft answer starts a matrimonial engagement which ends in war.

### Test New Explosive

Hexamethylenetriperoxidamine has been tested by the bureau of mines to determine its detonating value. It is an explosive that may be useful in armor-piercing shells.

### AMUSEMENTS

See Yourself in the Movies  
The motion picture taken in Brainerd on "Better Sins Day" will be shown at the New York tonight and Thursday. The pictures are being released by Kinograms and will be shown in the News Reel. They are now being shown all over the United States.

### Quaint Indian Names

Many quaint old Indian names are given the famous characters who appear in "Leatherstocking," the ten-chapter Pathoserial which will appear weekly at the Lyceum theatre commencing Friday and Saturday. This adaptation of Cooper's famous "Leatherstocking" Tales, which features Harold Miller and Edna Murphy, introduces "Briar-thorn," "Rivenoak," "Sumach," "Chingachgook," and other redmen made famous by the author.

bags four. He was cutting them loose.

Carpentier worked seven rounds, boxing Molinat two, punched bag two, shadowboxed two, skipped rope one. Georges seems ready to enter the ring now. He worked fast and hurried to the showers. The Frenchman, following custom of laying off one day out of seven, will rest Thursday.

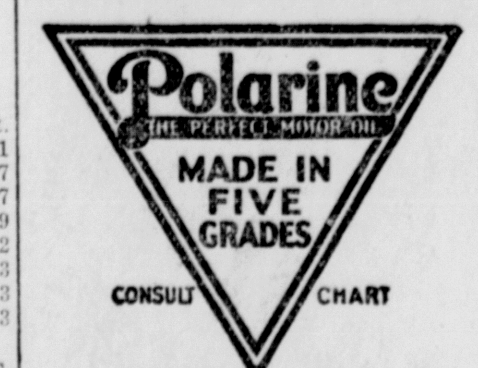

Charles Ledoux, Robert Diamant and Charles Raymond, all feathers, will join Carpentier's camp today. Sammy Mandell will arrive in time to box with Gibbons.

Work of building 10,000 extra seats for the fight was started yesterday, due to the heavy advance sale of tickets. The new seats, all in the \$10 circle, will increase the capacity of the bowl to 40,000.

## INDIANA GOVERNOR WILL NOT STOP FIGHT

Indianapolis, May 21.—Gov. E. H. Branch has refused to take action to stop the Carpentier-Gibbons fight at Michigan City, Ind., May 31 on the grounds that the event is a prize fight.

Edward E. Spofford, commander of the New York department of the American Legion, protested holding of the match because of the Indiana law against prize fights.

New York, May 21.—Benny Leonard has developed so much enthusiasm for the theatrical profession and he professes to see such a future in it that it would be no great surprise if he announced his retirement from the ring after the outdoor season.

When a champion in these days of few fights and immense purses talks of retirement, the public is justified in considering the conversation to be a lot of bunk.

Leonard, as the champion lightweight of the world is, at the very least, a \$200,000-a-year man, and he is not in his thirties. A surgeon, a lawyer, or an engineer, who has made himself worth \$200,000 a year before he passed his twenties, would be mentally deficient if he gave up his business and started in the practice of a new profession.

While it is admitted that the boxer hasn't a profession as permanent as a young man with a skilled technical trade, it seems that Leonard has several years ahead of him, and even a few years at such a handsome salary would put the ordinary tradesman at ease for life.

Leonard, however, does not look at it that way. He has the theatrical bug and has it bad, but he has some sensible arguments to show that his desire to get out of the boxing business is not a fad of the moment or a silly hobby.

While he was being made up recently by a star cosmetic thrower in a New York movie studio, where he was to go through a 60-round fight for the hand of a movie queen, Leonard unburdened himself of some of his ideas about the boxing business.

"This commission idea of government is spoiling the game," he said. "They try to tell a boxer what he must do. They tell a promoter how much he can charge, how many spectators he can seat and what boxers he can match. The New York commission got on me a few days ago and told me that I had to defend the title. I told the commissioners I was ready to fight if they would get an opponent for me, and they had to admit that it would be a job for them to find an opponent."

"The newspapers play up the exorbitant purses that boxers get and the reformers complain about it. Because of the prominence given in the news to purses paid to fighters, the public gets the idea that boxers are the highest paid performers in the world. They are not. Supposing I do make \$300,000 a year, that is small compared to Al Jolson's million dollars a year and the salaries and income of a half million dollars that several other star actors get."

## BENEFIT DANCE BY THE CROSBY-IRONTON TEAM

TO RAISE FUNDS TO BUY UNIFORMS FOR TEAM IN CENTRAL MINN. LEAGUE

TO BE GIVEN IN CROSBY ARMORY ON THURSDAY EVENING, MAY 22ND

The Crosby-Ironton baseball team will give a benefit dance in Crosby armory on Thursday evening, May 22, to raise money to buy uniforms for their appearance in the Central Minnesota league.

LaFebvre's range orchestra of eight pieces has been engaged for the dance. It comes on the same evening as the Elks' big time on the range, and many of the Elks are expected to attend the dance.

## TOM GIBBONS PERFECTING PUNCH

Michigan City, May 21.—Realizing that the speed and cunning that allowed him to stay with Jack Dempsey for 15 rounds will be matched by Georges Carpentier when they meet May 31, Tommy Gibbons is developing a punch with which he hopes to stop the crafty Frenchman.

Gibbons laughed at the cold Lake Michigan breezes and went through double his usual training capers to keep warm. He got up a fine perspiration and was glowing when he finished.

Carpentier, meanwhile, slowed up a bit in his training. He fears an overtrained condition more than anything else.

Gibbons trained the equivalent of 16 rounds, boxing Herman and Anderson three each, shadowboxed two, skipped rope four, punched heavy

bags four. He was cutting them loose.

Carpentier worked seven rounds, boxing Molinat two, punched bag two, shadowboxed two, skipped rope one. Georges seems ready to enter the ring now. He worked fast and hurried to the showers. The Frenchman, following custom of laying off one day out of seven, will rest Thursday.

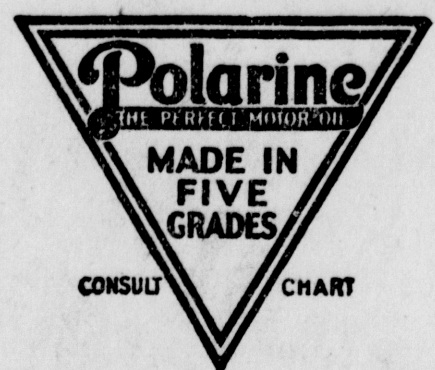

Charles Ledoux, Robert Diamant and Charles Raymond, all feathers, will join Carpentier's camp today. Sammy Mandell will arrive in time to box with Gibbons.

Work of building 10,000 extra seats for the fight was started yesterday, due to the heavy advance sale of tickets. The new seats, all in the \$10 circle, will increase the capacity of the bowl to 40,000.

## INDIANA GOVERNOR WILL NOT STOP FIGHT

Indianapolis, May 21.—Gov. E. H. Branch has refused to take action to stop the Carpentier-Gibbons fight at Michigan City, Ind., May 31 on the grounds that the event is a prize fight.

Edward E. Spofford, commander of the New York department of the American Legion, protested holding of the match because of the Indiana law against prize fights.

## Merchant Financial Wreck

"I am a financial wreck because of the expense of doctors and medicine for my wife. She has been a chronic sufferer for 10 years. Some pronounced it gall stones, some gastritis and some intestinal inflammation. I happened to read an ad of Mayr's Wonderful Remedy and from the first dose my wife has steadily improved." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. Johnson's Pharmacy and all leading druggists.

Scene from "A LADY OF QUALITY" Starring VIRGINIA VALLI A UNIVERSAL SUPER-JEWEL

Virginia Valli in Great Novel

Life in another world, the world of yesterday, is pictured dramatically in "A Lady of Quality," the screen transcription of the Frances Hodgson Burnett novel of that name, showing at the Lyceum tonight and Thursday.

London of 1700 is far away from the modern world of 1924. Customs, manners, clothes, architecture and belief of that day are little like those of today.

Milton Sills has the leading male role.
